

#4 LASH GROW SERUM

Eyelash extensions are so 2006. This year we're loving "fertiliser" for lashes.

"My clients are addicted to MD Lash Factor, \$220 (1300 799 709) because they want their own lashes to look thick, rather than relying on fake ones," says Nathan Williams from Parlour B, Sydney. When applied before bed, the serum stimulates lash growth and results are seen in three to five weeks. "You won't believe how amazing they look after a quick lash tint," he adds.

Also try: Jan Marini Age Intervention Eyelash Conditioner, \$275, (03) 9509 9526, and GloLash Enhance Eyelash Serum, \$249, 1800 66 44 55.

#5 THE PERSONALISED MASK

Nothing beats a shiny, supermodel head of hair, but while some moisturising masks get the conditioning part right, they can leave locks limp and lifeless. Goldwell InnerEffect Hair Regeneration Therapy takes in-salon customising to a new level. How? By tailoring a mask to suit your hair type's needs. For instance, oily roots and dry ends receive a separate mix for both areas, applied at the same time, for glorious and amazingly fast results. For more information, call 1800 506 060.
